## FOR REVIEW

### HIPAA SANCTIONS STANDARD

**What?** The Institutional Privacy Office has proposed this Standard to provide guidance and structure for the University in situations where HIPAA violations have occurred. HIPAA requires us to have a policy on this topic. Though the Standard looks like a bear to read through, it is worth a read if you are responsible for any students, staff, faculty, contractors, or others who come into contact with PHI as a function of their role at the University.

**Who?** All UNC-Chapel Hill constituents in HIPAA Covered Units or with access to PHI

### PRIVACY LIAISON POLICY

**What?** This Policy will set out the roles and responsibilities of Privacy Liaisons, and of each business unit with responsibility for PHI.

**Who?** All UNC-Chapel Hill constituents in HIPAA Covered Units or with access to PHI
